

TS-SG-500 SPEED GATE SERIES

Introduction:

The Technospacio Elegant High-Speed Gate TS-SG-500 is designed to provide fast, reliable and secure access control for modern building entrances. Combining advanced security features with a sleek and stylish design, it seamlessly integrates into corporate offices, commercial buildings, residential complexes, airports and other high-traffic environments.

The gate features a slim stainless-steel body with clear tempered glass barriers, while laser-pattern acrylic panels are available as an optional customization. Its elegant design can be adapted to match various architectural and aesthetic requirements without compromising security or performance.

Application :

School/College

Airport

Metro

IT Companies

Government Offices

Factories

Access Control System(Optional)

Swipe Card

Access is controlled through authorized swipe cards, ensuring secure, reliable, and efficient entry management.

Iris Recognition Access

Secure, contactless entry using unique eye-based identification for high-level safety and fast access control.

Fingerprint Recognition Access

Secure entry using authorized fingerprint authentication for fast and reliable access control.

Coin / Ticket Access System

Entry is allowed using a valid coin or ticket, providing a simple and controlled access solution for managed entry points.

Face Recognition Access System

Secure and contactless entry using authorized facial identification for fast and reliable access control.

Manual Operation

Gate can be opened manually using wired or wireless controls for convenient entry management.

Features:

Reliability

The Technospacio Speed Gate Turnstile features a durable alloy steel flap hub and SUS 304 stainless steel construction for long-lasting performance. Its energy-efficient electromagnetic locking system, self-lubricating compact mechanism, and high-quality electrical components ensure reliable, smooth, and maintenance-friendly operation.

Safety & User-Oriented Design

The Technospacio Speed Gate Turnstile ensures safe and convenient access with anti-pinch protection, smooth flap operation, user-friendly clear LED direction indicators. Its design supports seamless integration with RFID, biometric, face recognition, and QR code access systems.

Easy Integration

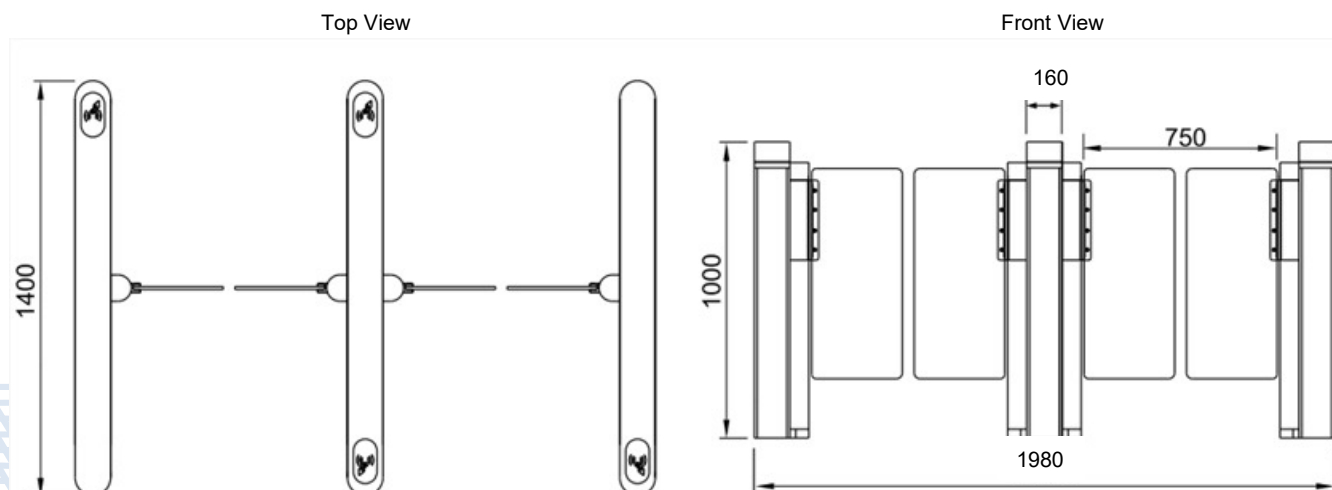

The Technospacio Speed Gate Turnstile is designed for seamless integration with third-party access control systems. Its flexible reader mounting options, standard electrical interfaces, and spacious internal design enable quick and efficient installation of RFID, biometric, QR code, and other authentication devices.

Integration Service

Technospacio provides factory-level integration services with all boards and peripherals pre-installed, ensuring full system compliance and reliability. The turnstile is delivered ready for use—just plug in and complete the setup. This simplifies installation and helps reduce overall installation costs.

Dimensions (mm):

Specifications:

Brand Name	TECHNOSPACIO
Model Name	TS-SG-500
Dimensions	1400*160*1000mm
Material Thickness	SUS304 Stainless Steel + Side Glass Panels + Black Acrylic Top Lid
Passage Width	600-900 mm
Passage indicator	Soft LED indicator light on top + Door RGB 3-color welcome lamp
Operating Environment	Indoor/Outdoor (Covered)
Power rate	60W
Power Supply	AC 110–220V, 50/60Hz
IP rating	IP 54
Drive Mechanism	DC Servo motor
Traffic Direction	Configurable for Unidirectional or Bidirectional flow
Control Signal	Relay contact signal (dry contact)
Operating Temperature	-40°C to +60°C
Passage Speed	30-40 persons/minute
MCBF	10 Million Cycles
