

TS-SG-700 SPEED GATE

Introduction:

The Technospacio TS-SG-700 High-Speed Gate is a premium pedestrian access control solution that combines elegant design with advanced security and high-performance operation. Designed for smooth, secure, and efficient pedestrian flow, it is ideal for corporate offices, government buildings, banks, hospitals, educational institutions, sports venues, and other high-security environments.

The TS-SG-700 supports seamless integration with a wide range of access control systems, including RFID cards, QR code scanners, facial recognition terminals, remote controls, and token-based authentication. Its intelligent design ensures reliable operation, enhanced user convenience, and effective prevention of unauthorized access, making it an ideal choice for modern entrance management.

Application :

School/College

Airport

Metro

IT Companies

Government Offices

Factories

Access Control System(Optional)

Swipe Card

Access is controlled through authorized swipe cards, ensuring secure, reliable, and efficient entry management.

Iris Recognition Access

Secure, contactless entry using unique eye-based identification for high-level safety and fast access control.

Fingerprint Recognition Access

Secure entry using authorized fingerprint authentication for fast and reliable access control.

Coin / Ticket Access System

Entry is allowed using a valid coin or ticket, providing a simple and controlled access solution for managed entry points.

Face Recognition Access System

Secure and contactless entry using authorized facial identification for fast and reliable access control.

Manual Operation

Gate can be opened manually using wired or wireless controls for convenient entry management.

Features:

Reliability

The Technospacio Speed gate turnstile features a durable alloy steel flap hub and SUS 304 stainless steel construction for long-lasting performance. Its energy-efficient electromagnetic locking system, self-lubricating compact mechanism, and high-quality electrical components ensure reliable, smooth, and maintenance-friendly operation.

Safety & User-Oriented Design

The Technospacio Speed gate turnstile ensures safe and convenient access with anti-pinch protection, smooth flap operation, and clear LED direction indicators. Its user-friendly design supports seamless integration with RFID, biometric, face recognition, and QR code access systems.

Easy Integration

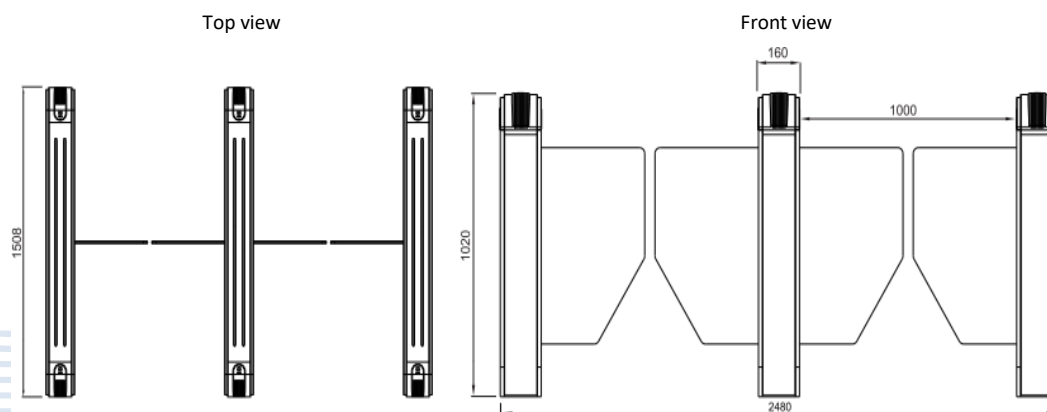

The Technospacio Speed gate is designed for seamless integration with third-party access control systems. Its flexible reader mounting options, standard electrical interfaces, and spacious internal design enable quick and efficient installation of RFID, biometric, QR code, and other authentication devices.

Integration Service

Technospacio provides factory-level integration services with all boards and peripherals pre-installed, ensuring full system compliance and reliability. The turnstile is delivered ready for use—just plug in and complete the setup. This simplifies installation and helps reduce overall installation costs.

Dimensions(mm):

Specifications:

Brand Name	TECHNOSPACIO
Model Name	TS-SG-700
Dimensions	1509*160*1019mm
Material Thickness	SUS304 Stainless Steel + Side Glass Panels + Black Acrylic Top Lid
Passage Width	600-900 mm
Passage indicator	Soft LED indicator light on top + Door RGB 3-color welcome lamp
Operating Environment	Indoor/Outdoor (Covered)
Power rate	100W
Power Supply	AC 110–220V, 50/60Hz
IP rating	IP 54
Drive Mechanism	DC Servo motor
Traffic Direction	Configurable for Unidirectional or Bidirectional flow
Control Signal	Relay contact signal (dry contact)
Operating Temperature	-10°C to +60°C
Passage Speed	30-40 persons/minute
MCBF	10 Million Cycles
